ROTATING RING BOX

Ring box packaging can be boring, but this ring box is sure to create excitement. The package begins closed, but when pulled open, the middle portion rotates to reveal the ring inside. What's cooler, the ring or the box?

ZIG ZAG CUFF BOX

A twist on traditional cuffed packaging design, the Zig Zag Cuff Box catches your eye with its chevron-like detail. A contrast finish or color in the cuff area provides a memorable shelf presence, and at-a-glance recognition.

ANGLED CUFF RING BOX

The Angled Cuff Ring Box is a simple evolution of the standard hinged ring box. The interior cuff allows the exterior lid and base to create this sharp, modern shape while the ribbon pull provides softness and interactivity.
